

## Digital Internal Bond Tester | IBT-10

### Compliant with standards

TAPPI T569,T833

### Description

Device to determine the internal cohesion of paper and paperboard.

- Selection of work units : ft.lb/sq.in, mJ/sq.in and J/m<sup>2</sup>
- Full statistics functions over 20 values.
- Three measure ranges with exchangeable pendulums.
- Reading resolution of 0,001 ft.lb (accuracy <1%).
- Steel robust frame designed to avoid energy losses during test.
- Automatic equipment calibration (Automatic zero).
- Automatic pendulum release to avoid differences between operators.

#### Characteristics

Electric : 220/110 V, 50/60 Hz.  
Air supply : 600
