

## Static Friction Tester | N2901\_U

### Compliant with standards

AFNOR NFQ 03.083, TAPPI T503,T815,T548, ASTM D202

### Description

Device to measure the static coefficient of friction.

- Adjustable speed according to the standard.
- Flat metal surface equipped with a digital reader of the angle of inclination.
- Several weight are offered according to the use of the device for different material controls.
- The French standard recommends a pressure of  $16 \pm 8 \text{ g/cm}^2$ .

#### Characteristics

110 – 230 V / 50 – 60 Hz

#### Contents of the delivery

Static Friction Tester with  
 standard block "A"  
 Connection cable  
 Operation manual
