

Vertical laboratory flutter | 100613

Compliant with standards

ISO 7263,DIN-EN ISO 7263,TAPPI T809,SCAN P27,PAPTAC D29, ...

Description

Device for the preparation of corrugates samples for CMT and CCT tests.

- Temperature control and regulation.
- Power consumption: 200 W.
- Heating system for better temperature regulation.
- Digital temperature display.
- Sample preparation system included.

Characteristics

110 – 220v, 50 – 60Hz

Contents of the delivery

Concora Medium Fluter
3rd hand with stripping block
Connection cable
